

*My opponent was a real person and not a robot.*

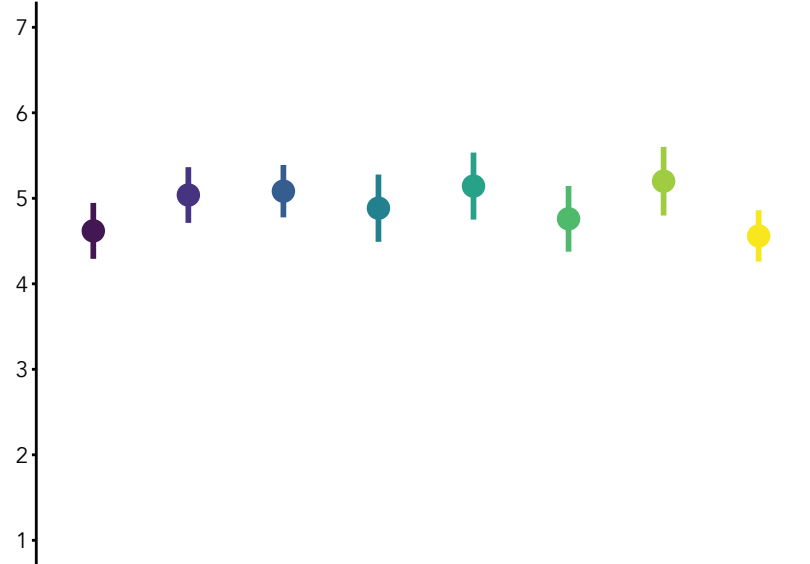

Bot pattern

- Previous move
- Opponent previous move
- Previous move, opponent previous move
- Previous two moves
- Self-transition
- Opponent-transition
- Previous outcome
- Previous outcome, previous transition

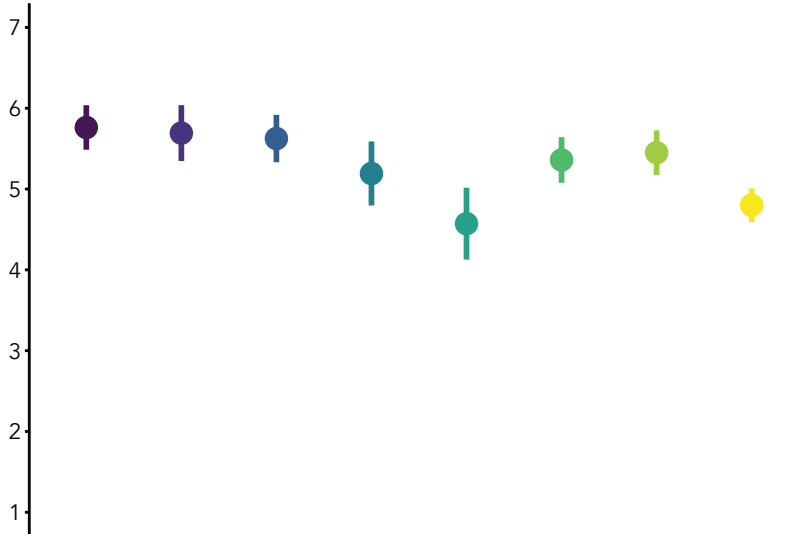

*I was trying to win each round against my opponent.*

*I was focused on winning for the entire time I was playing.*

*I paid attention to my opponent's moves in order to try and predict their next move.*

*There were noticeable patterns in my opponent's moves that allowed me to predict their next move.*
