

*My opponent was a real person and not a robot.*

Bot pattern

- Self-transition (+)
- Self-transition (-)
- Opponent-transition (+)
- Opponent-transition (0)
- Previous outcome (W0L+T-)
- Previous outcome (W+L-T0)
- Previous outcome, previous transition

*I was trying to win each round against my opponent.*

*I was focused on winning for the entire time I was playing.*

*I paid attention to my opponent's moves in order to try and predict their next move.*

*There were noticeable patterns in my opponent's moves that allowed me to predict their next move.*
